

Sandvik Hand Saws

The "Fish & Hook" Brand

Trade Mark of Supreme Quality in Saws

THE MATERIAL from which these saws are manufactured is SANDVIK'S Swedish Charcoal alloy steel, recognized universally today for its keen cutting qualities and durability. The composition of SANDVIK Saw Steel gives the saws a degree of sharpness and elasticity never before attained. **HARDENING:** Our special method of uniform hardening ensures an exceptional flexibility of the blade combined with the greatest cutting power, without making the teeth unduly hard. **DESIGN AND FINISH:** The blades are well balanced and highly polished with the weight perfectly distributed, and the handles are fitted to the blade at a scientifically determined angle to permit application of power to the teeth to obtain highest cutting speed with the least expenditure of energy. **GUARANTEE:** Every saw is fully guaranteed against manufacturing defects. Any saw believed to have a flaw should be forwarded direct to SANDVIK SAW & TOOL, 47 Warren Street, New York 7, N. Y., for examination. No replacements can be made prior to examination by us.

NO. 280—SANDVIK DE LUXE—STRAIGHT BACK

Length of Blade	Weight per Dozen	Points per inch	Price per Doz.
24 inches	20 $\frac{3}{4}$ lbs.	8, 10 11 cross cut	\$183.00
26 inches	22 $\frac{1}{4}$ lbs.	5 $\frac{1}{2}$ rip; 7, 8, 9, 10, 11 cross cut	\$183.00

Established as the leader among handsaws for cutting power, durability, and appearance. Made of special analysis Swedish charcoal alloy steel giving exceptional sharpness, flexibility and durability. Extra narrow blade is highly taper-ground toward the back. Breasted tooth line. Mirror polished with beautifully etched trademark. Shock resisting, comfortable, and tough plastic handle, attractively carved, with polished stainless steel plate on both sides and four chromium plated screws. Ship Point, lightweight pattern. Straight back. Filed and set. Packed in attractive, individual carton.

NO. 271—STRAIGHT BACK

Length of Blade	Weight per Dozen	Points per inch	Price per Doz.
22 inches	16 $\frac{3}{4}$ lbs.	10, 11 cross cut	\$126.00
24 inches	18 $\frac{1}{4}$ lbs.	8, 10, 11 cross cut	\$132.00
26 inches	20 $\frac{3}{4}$ lbs.	5 $\frac{1}{2}$ rip; 7, 8, 9, 10, 11, 12 cross cut	\$132.00
28 inches	24 $\frac{1}{2}$ lbs.	5 $\frac{1}{2}$ rip; 8 cross cut	\$135.00

Extra SANDVIK quality. Lightweight pattern. Straight back. Highly polished blade with etched trademark. Fully taper ground. Breasted tooth line. Equipped with tough and comfortable, carved, plastic handle and four nickel-plated brass screws. Filed and set. Packed in individual carton.

NO. 278—SKEW BACK

The #278 SANDVIK is identical to the #271 except that it is a SKEW BACK instead of a straight Back. (see above)

Length of Blade	Weight per Dozen	Points per inch	Price per Doz.
26 inches	20 $\frac{1}{4}$ lbs.	5 $\frac{1}{2}$ rip; 7, 8, 9, 10, 11 cross cut	\$132.00

NO. 273—STRAIGHT BACK

Length of Blade	Weight per Dozen	Points per inch	Price per Doz.
22 inches	16 $\frac{1}{2}$ lbs.	10, 11 cross cut	\$103.00
24 inches	17 $\frac{3}{4}$ lbs.	8, 10, 11 cross cut	\$109.00
26 inches	20 $\frac{3}{4}$ lbs.	5 $\frac{1}{2}$ rip; 7, 8, 9, 10, 11 cross cut	\$109.00

An exceptionally good quality all-purpose hand saw. Very popular in all markets. Polished blade with etched trademark and taper ground to the back. Breasted tooth line. Durable, carved plastic handle with four brass screws. Lightweight pattern. Straight back. Filed and set. Each saw in individual carton.

NO. 291—STRAIGHT BACK

Length of Blade	Weight per Dozen	Points per inch	Price per Doz.
26 inches	18 $\frac{1}{4}$ lbs.	6, 7, 8 straight tooth	\$95.00*

A fine hand saw designed primarily for shoring work, heavy framing work, rough construction, cutting of heavy timber, etc., and widely used in mines, pier construction and all kinds of heavy duty sawing work where high cutting speed is the important requisite. SANDVIK special **straight** toothing on this saw greatly increases the sawing speed. **Regular pattern.** Breasted tooth line. Filed and set. Polished blade with etched trademark. Strong plastic handle for perfect balance and durability with three brass screws. The handle is moulded with a special recess on side of handle for forefinger and thumb to provide an extremely firm and comfortable grip. Packed six saws to a carton.

NO. 292—HIGH-SPEED SPLITTING

Length of Blade	Weight per Dozen	Points per inch	Price per Doz.
26 inches	15 lbs.	Graduated toothing	\$83.00*

Designed primarily for splitting and contour work. Teeth are graduated from fine to coarse for quick starting and fast cutting. Tough plastic handle with three brass screws, moulded recess for thumb and forefinger. Polished blade with etched trademark. Filed and Set. Packed six to a carton, each saw in individual envelope.

*10% Surcharge on broken cartons.

Prices subject to change without notice.

NO. 1532

Sandvik Hand Saws

The "Fish & Hook" Brand

Trade Mark of Supreme Quality in Saws

All SANDVIK Saws, because they are manufactured from the finest tool steel the world has ever known, are unsurpassed in performance and durability. SANDVIK Swedish charcoal alloy steel, from which these saws are made, is unmatched for its ability to take and hold an extremely high degree of sharpness. Constant research, conducted by highly trained metallurgists in modern laboratories, assures the purchaser of a SANDVIK Saw of the most modern technological developments in design and engineering, and positive, continual quality control so that there is no deviation from the high standards the public expects from SANDVIK Saws.

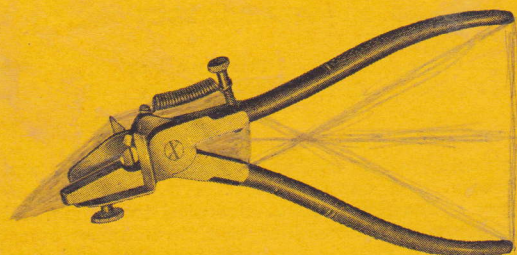

No. 308 Back Saw—The SANDVIK No. 308 Back Saw has a heavy, detachable steel back which supplies greater stiffness and holds the cutting edge in the cut of wood. For all kinds of cabinet work requiring great accuracy. Plastic handle with two brass screws especially designed and mounted for perfect control. Back and blade extend well into handle. Filed and set. All lengths furnished with 11 points per inch. Packed six saws to a carton.

Length of Blade	Weight per dozen	Price per dozen
12 inches	10 lbs.	\$64.00
14 inches	11 lbs.	67.00
16 inches	12 1/4 lbs.	69.25

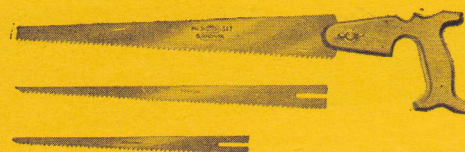

No. 315 Compass Saw—SANDVIK quality Swedish steel, polished and tempered, and tapered highly from cutting edge to back. Etched trademark. Sharpened and set. Varnished birch (Patented U. S. No. 2,006,990) plywood handle with two brass screws. Teeth especially designed for cutting sharp curves, and entire blade tapers to a sharp point. All lengths furnished with 8 points per inch. Also obtainable not taper ground as No. 324 SANDVIK Compass Saw. Packed six saws to a carton.

Length of Blade	Weight per dozen	Price per dozen
No. 315 x 12"	5 3/4 lbs.	\$60.50
No. 315 x 14"	6 lbs.	62.00
No. 324 x 12"	5 3/4 lbs.	40.00
No. 324 x 14"	6 lbs.	41.50

No. 125 Saw Set—A powerful, strong Saw Set, especially designed and recommended for setting hand saws, but also ideally suited for setting pulpwood saw blades, band saws, butcher saw blades and back saws. Adjustable for various tooth heights and degrees of setting by the adjustable guide. Made of drop forged steel. Deep hardened Swedish steel plunger and anvil. Individually boxed.

Weight per dozen	Price per dozen
5 1/2 lbs.	\$60.00

No. 317 Nest of Saws—The No. 317 SANDVIK Nest of Saws brings the characteristic high standards of SANDVIK compass saws into a very popular price range. It is a combination of three compass saw blades, 10", 14" and 16" in length, with one handle. The blades are interchangeable and are slotted at the butt end for rapid changing from one length to another as required. The handle comes complete with a screw and wing nut for retaining the blades. Blades are sharpened and set. 8 points per inch on 14" and 16" blades, and 10 points per inch on 10" blade. Packed six sets per carton.

Weight per dozen	Price per dozen
10 lbs.	\$77.00

	Price per Doz.
Extra 10" Keyhole Blades only for above	\$16.00
Extra 14" Compass Blades only for above	17.00
Extra 16" Plumbers Blades only for above	25.50

No. 314 Veneer Saw—Increasingly popular in recent years, the 314 SANDVIK Veneer Saw is especially adapted for sawing relatively thin material, such as plywood, masonite, veneer, etc. Taper ground to the back. Toothed on curved part of back to permit cutting of slots or grooves in the center of a board, without the necessity of drilling a hole, and thus performs functions of a compass saw also. Beech handle. Polished blade with etched trademark. Blade has 14 teeth per inch. Packed six saws to a carton.

Length of Blade	Weight per dozen	Price per dozen
11 inches	6 1/4 lbs.	\$45.00

No. 334 Pruning Saw—The No. 334 SANDVIK Pruning Saw brings to the orchardist, tree surgeon, and home gardener a saw particularly designed for his needs, and of the same high quality discriminating craftsmen obtain in their SANDVIK Hand Saws. Needle-sharp teeth, 8 points to the inch, are reversed to cut on the draw stroke. Polished blade with etched trademark. Blade is attached securely to handle with two tubular rivets. Comfortable pistolgrip handle, 6 inches long. Packed three saws to a package.

Length of Blade	Weight per dozen	Price per dozen
14 inches	6 1/4 lbs.	\$47.00

Prices subject to change without notice.
